This is my first blog post, and I wanted to make it about something I've found for my favorite game: Team Fortress 2! (Don't know about the game? Click Here! ----> I don't know about you guys, but I can't pay anything steam related, let alone get TF2 Premium, but this website will help you get them absolutely free!! Here it is: ? join=426007 This is a great website that allows you to get items for free, from everything from the TF2 Premium Gift to Steam Games to CS:GO items to even Wallet Codes! All you have to do is fill surveys on the site, earn points, and cash them in for almost anything TF2 or other item related. But, before you exit this post in frustration thinking that you'll never get a premium or and item easily, let me tell you this: Earning points on Steampowers.net is incredibly easy. In fact, here are some tips to earn points with little to no effort: Go for the "sign-up" offers. Just put in a junk email (you can make one easily on yahoo.com), BS some information, and most likely you'll get rewards. If it still exists, try the Swagbucks offer on Trial Pay. This is another point-earning site like SteamPowers, but only with real rewards. You can earn those 450 points really easily (I did it in 2 days casually), and it gives you a whopping 1000 points (that's 10\$, mind you)! Try not to go for surveys, videos, car-insurance quotes, etc unless you know how to complete them. Surveys may reject your points for not qualifying, videos give too little, and the car quotes usually need a phone confirmation/real-life confrontation to confirm Go for offers giving more than 40 points a pop, because they are easier, and give a healthy sum of points. Anyway, this website will allow you to get items, Premium accounts, games, codes, etc., so it's basically a haven for free playing users who want a bit of flair in their gaming. That's all I have the time for, but feel free to contact me here for tips and help. See ya guys later! 1 Click the "Servers" button. Launch your TF2 game on whatever platform you're using, and on the game's main screen, click on "Servers" to summon a list of the servers available for you to play in. 2 Click on the Latency tab to arrange the servers according to latency. The lower the latency, the better your game-play experience is going to be. 3 Double-click on a server you want to play in to connect to that server. Once the server has loaded, you will be taken to a welcome screen. 4 Click on "Continue." The button can be found on the lower-right corner of the screen. 5 Choose a team. There will be three doors, two of them indicating the color of both teams and one for random team. Choose a door to join a team. 6 Choose a character class to play as. Click on a class to select one, and click "Play" to spawn into the game world's map. You can select any of the following: Pyro — a final-offensive class that can set other players on fire with his flamethrower Engineer — a last-defensive class, capable of building a number of structures to support the team Spy — a last-support class, can equip covert tools as well as disguise himself as other players Heavy — the strongest class, can sustain and deal immense amounts of damage, but is also the slowest class Sniper — can shoot enemies from afar Scout — a fast, agile first-offensive character Soldier — a more durable class, but slower in speed Demoman — a first-defensive class, can use high-damage weapons to provide indirect fire and can set traps Medic — a first-support class, responsible for keeping teammates alive 1 Play for a couple of hours. As long as you do not exceed ten hours per week, you will be able to receive items. The items will arrive whenever your player dies. When you're directed to the main menu after your character dies, a notification will appear saying that you've received the items. 2 Accept the item in the Item menu. To accept, just click on "OK, resume game." You will not receive additional items if you do not accept it, so make sure you accept the items to continuously receive them within the 10 hours allocated to you. Add New Question Question How can I get a Rescue Ranger? By doing the exact same thing or trading other weapons for the rescue ranger. Question How do I get into competitive for free? You must have a premium version of TF2, a phone number linked to your Steam Guard and must be level three in casual mode. Question Are cosmetics in random drops as well? No, they are only for premium members, so if you're premium then you'll get cosmetics, but if not, then no. Question Does this always work? Yes, you are guaranteed to get weapons this way, but you might not get the one you want. Question Are there any weapons I can't get? There might be some you can't normally buy. You may be able to find it on backpack.tf or the Steam Community Marketplace.
